

The 12th GCB

Biomedical Science and Engineering Symposium

8.17^{SUN}
2025

Excellence and Extension of Radiotherapy

Speakers

Session I Theragnostic Radiopharmaceuticals

Corinne Beinat Stanford University

Hong Song Stanford University

Ilhan Lim Korea Institute of Radiological & Medical Sciences

Shiro Watanabe Hokkaido University

Tatsuya Higashi National Institutes for Quantum Science and Technology

Yuki Mizuno Hokkaido University

Session II Cardiac Ablation

Yuki Komatsu University of Tsukuba

Taro Koya Hokkaido University

Billy W. Loo Jr. Stanford University

Kenneth W. Merrell Mayo Clinic

Takayuki Hashimoto Hokkaido University

Naoki Miyamoto Hokkaido University

Venue **Hybrid Event**

Clinical Medicine Lecture Building,
School of Medicine, Hokkaido University

Organizers

Global Center for Biomedical Science and Engineering, Faculty of Medicine,
Hokkaido University

Department of Radiation Oncology,
Stanford University School of Medicine

Co-organizers

The Healthcare AIX Innovation Center,
Hokkaido University

Medical AI Research and Development Center,
Hokkaido University Hospital

Registration for online participation

This event is **FREE** and **OPEN**
to the public

*No pre-registration is required for on-site participation.
